SPECIAL SERVICE MEMORANDUM - 245

Administrative - 14

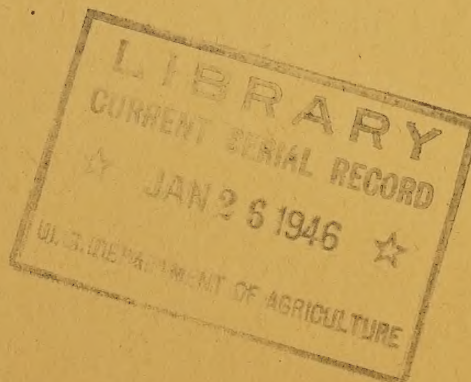

SUBJECT: Priority Ratings under PR-28, Amended Oct. 25, 1945

This memorandum supersedes Special Services Memorandum 221, Machinery Rationing 161, and the paragraph headed "Miscellaneous Priority Assistance" of Special Services Memorandum 239, Administrative 10. All other paragraphs of Special Services Memorandum 239 were superseded previously.

Copies of PR-28, Amended October 25, 1945, are being forwarded to State Office in quantities sufficient to furnish one to each county office and a limited number for State office use. Under paragraph (d)(1)(v) of PR-28, Amended October 25, the War Production Board may issue a non-extendible CC rating when "the item is needed to replace an item which has been destroyed by flood, fire, tornado, or other act of God, and the item is essential to the continued operation of the plant, facility service, or the item is to be used on a farm."

Direction 2 to L-257-c was revoked on October 22, 1945. That Direction served as the basis for the procedure contained in Special Services Memorandum 221 for giving special relief to farmers who lost farm machinery and equipment in the 1944 and 1945 floods (Public Law 75 approved June 5, 1945). Paragraph (d)(1)(v) of PR-28 now implements Public Law 75 and permits any farmer to file an application on WPB-541-A(revised) for items needed to replace those destroyed by fire, flood, tornado, or other act of God.

The War Production Board may assign CC ratings in accordance with other provisions of PR-28 upon receipt of applications on Form WPB-A(Revised). County Committees may make recommendations on applications filed by farmers. A brief and concise statement showing the urgency of the situation will be of material assistance to the War Production Board field offices when such offices process the applications.

SPECIAL SERVICES MEMORANDUM - 246

Administrative - 15

SUBJECT: Ammunition. Revocation of WPB Order L-286.

This memorandum supersedes Special Services Memorandum-180,
Supplies-55.

The War Production Board revoked Order L-286, effective October 31,
1945. That action removed all controls on manufacture, delivery, and
sale of ammunition. Consequently, the program outlined in Special
Services Memorandum-180 is no longer in effect.

SSM-247

SPECIAL SERVICES MEMORANDUM - 247

Administrative-16

SUBJECT: Discontinuance of Controls Governing Procurement of
Anthracite Coal for Operation of Poultry Brooders
and Hatcheries

This memorandum supersedes Special Service Memorandum-143, Supplies-53.

The Solid Fuels Administration revoked Revised Regulation 5 effective November 1, 1945. Since Special Services Memorandum-143 was based on Revised Regulation 5, that memorandum becomes inactive.
